

# Decorative Concrete

**Concrete doesn't have to be gray, dull or flat anymore.**

Concrete always has been known for its strength, durability and value. Now these attributes are enhanced to beautiful effect with an ever-broadening array of concrete textures, colors and finishes. Decorative concrete works well for new construction or resurfacing existing surfaces, for interior or outdoor projects, and for horizontal or vertical applications.

Choose from a wealth of colors, patterns, textures and ideas—for patios—walks and driveways—swimming pool decks—restaurants, showrooms and exhibit halls—dramatic corridors—kitchen floors and countertops—and hundreds of other applications.

## Kuhlman Offers a Complete Line of Decorative Concrete Products

- Over 700 liquid colors from leading brands.
- Concrete stains—transparent and opaque, acid or water-based.
- Integral colors.
- Shake-on color hardeners, releases and antiquing agents.
- Dozens of different stamp patterns for sale or rent, including those shown in our on-line catalogs for [Akron](#) and [Toledo](#).
- Stampable and sprayable overlays for horizontal and vertical applications.
- Stencils with adhesive or non-adhesive backing.
- Concrete countertop materials and forms.
- Vertical stamping systems.
- Form and step liners.
- Surface preparation equipment for rent — including a wide range of powered equipment for grinding, polishing, hammering and cutting, as shown in our [rental schedule](#).
- Sealers and curing compounds.
- Tinted sealers.
- Repair and restoration materials.
- Tools and accessories.
